Core Concepts: REST API Integration, Authentication, CRUD Operations, Responsive Design, Cross-Browser Compatibility, Performance Optimization

Experience

Frontend Developer Intern Jan 2023 – Apr 2023
Confidosoft Solutions Pvt. Ltd. *Vadodara, Gujarat*

- Developed responsive web applications using Angular, enhancing usability and performance across multiple devices.
- Collaborated with team members to integrate front-end components with back-end services.
- Diagnosed and resolved UI and performance issues, improving application stability and usability.
- Contributed to frontend optimization discussions and implementation improvements.
- Focused on migrating a web application from Angular 10 to Angular 14, ensuring improved performance, security, and maintainability.

Digital Marketing Intern Mar 2026 – May 2026
Webmyne Systems Pvt. Ltd. *Vadodara, Gujarat*

- Supported SEO activities including keyword research, on-page optimization, backlink analysis, and content improvement.
- Assisted in executing digital marketing campaigns across social media and online platforms.
- Created and scheduled marketing content to improve audience engagement and brand visibility.
- Conducted market and competitor research to support campaign strategy and optimization efforts.
- Monitored website traffic and campaign performance using analytics and digital marketing tools.

Freelance Experience

Frontend Development, Freelance Projects & Technical Skill Building 2024 – Present

- Built and deployed production-ready frontend applications using Angular and React.
- Delivered responsive freelance websites for real-world clients across different industries.
- Strengthened expertise in responsive design, and performance optimization.
- Continuously improved frontend engineering skills through hands-on project development and practical implementation.

Projects

LensCraft | *React, Redux & Appwrite*

Live: https://lenscraft3.netlify.app/

- Designed and delivered a scalable CMS platform enabling efficient content management and improved user workflows
- Designed and implemented secure authentication workflows and dynamic dashboards for streamlined content operations.
- Leveraged Redux for state management, improving application scalability and maintainability.
- Optimized dashboard rendering and responsiveness across 4+ device types.

WeBlog | *Angular 14, TypeScript, Appwrite/Auth*

Code: https://github.com/rmargav/WeBlog-Angular_App/

- Architected and developed a scalable blogging platform with full CRUD functionality, secure authentication, and image upload capabilities.
- Implemented modular architecture and reactive forms to ensure maintainability and scalability.
- Designed a responsive, accessible UI using modern frontend practices, improving user engagement and usability.
- Integrated Appwrite Authentication and real-time database, enabling secure and efficient user data management.
- Improved frontend responsiveness and reduced page load time by approximately 25%.

MOKO - Frames By Frames Website | *Freelance Project*

Live: https://mokoframes.in/

- Created a visually compelling and responsive website tailored to client branding and creative direction.
- Enhanced user experience through clean design, optimized layouts, and efficient asset loading.

Biotite Process Solutions Saudi Website | *Freelance Project*

Live: https://biotitesaudi.com/

- Designed and developed a professional, brand-aligned website for an international industrial client.
- Ensured high responsiveness, accessibility, and optimized performance across devices and browsers.

FireMart Website | *Freelance Project*

Live: https://firemart.in/

- Designed and developed a responsive business website focused on creating a clean and professional online presence for the client's business.
- Built user-friendly layouts and smooth navigation to ensure the website works well across mobile, tablet, and desktop devices.
- Improved the overall look and feel of the site by maintaining consistent design elements, faster loading, and a better browsing experience.

Certification

Front-End Web Developer Professional Program, Baroda Institute of Technology Aug 2024 - Jun 2025

Additional Strengths

- Strong problem-solving mindset with focus on scalable solutions
- Effective collaboration in cross-functional development teams
- Ability to quickly adapt to new technologies and project requirements
- Consistent track record of delivering high-quality work within deadlines
